

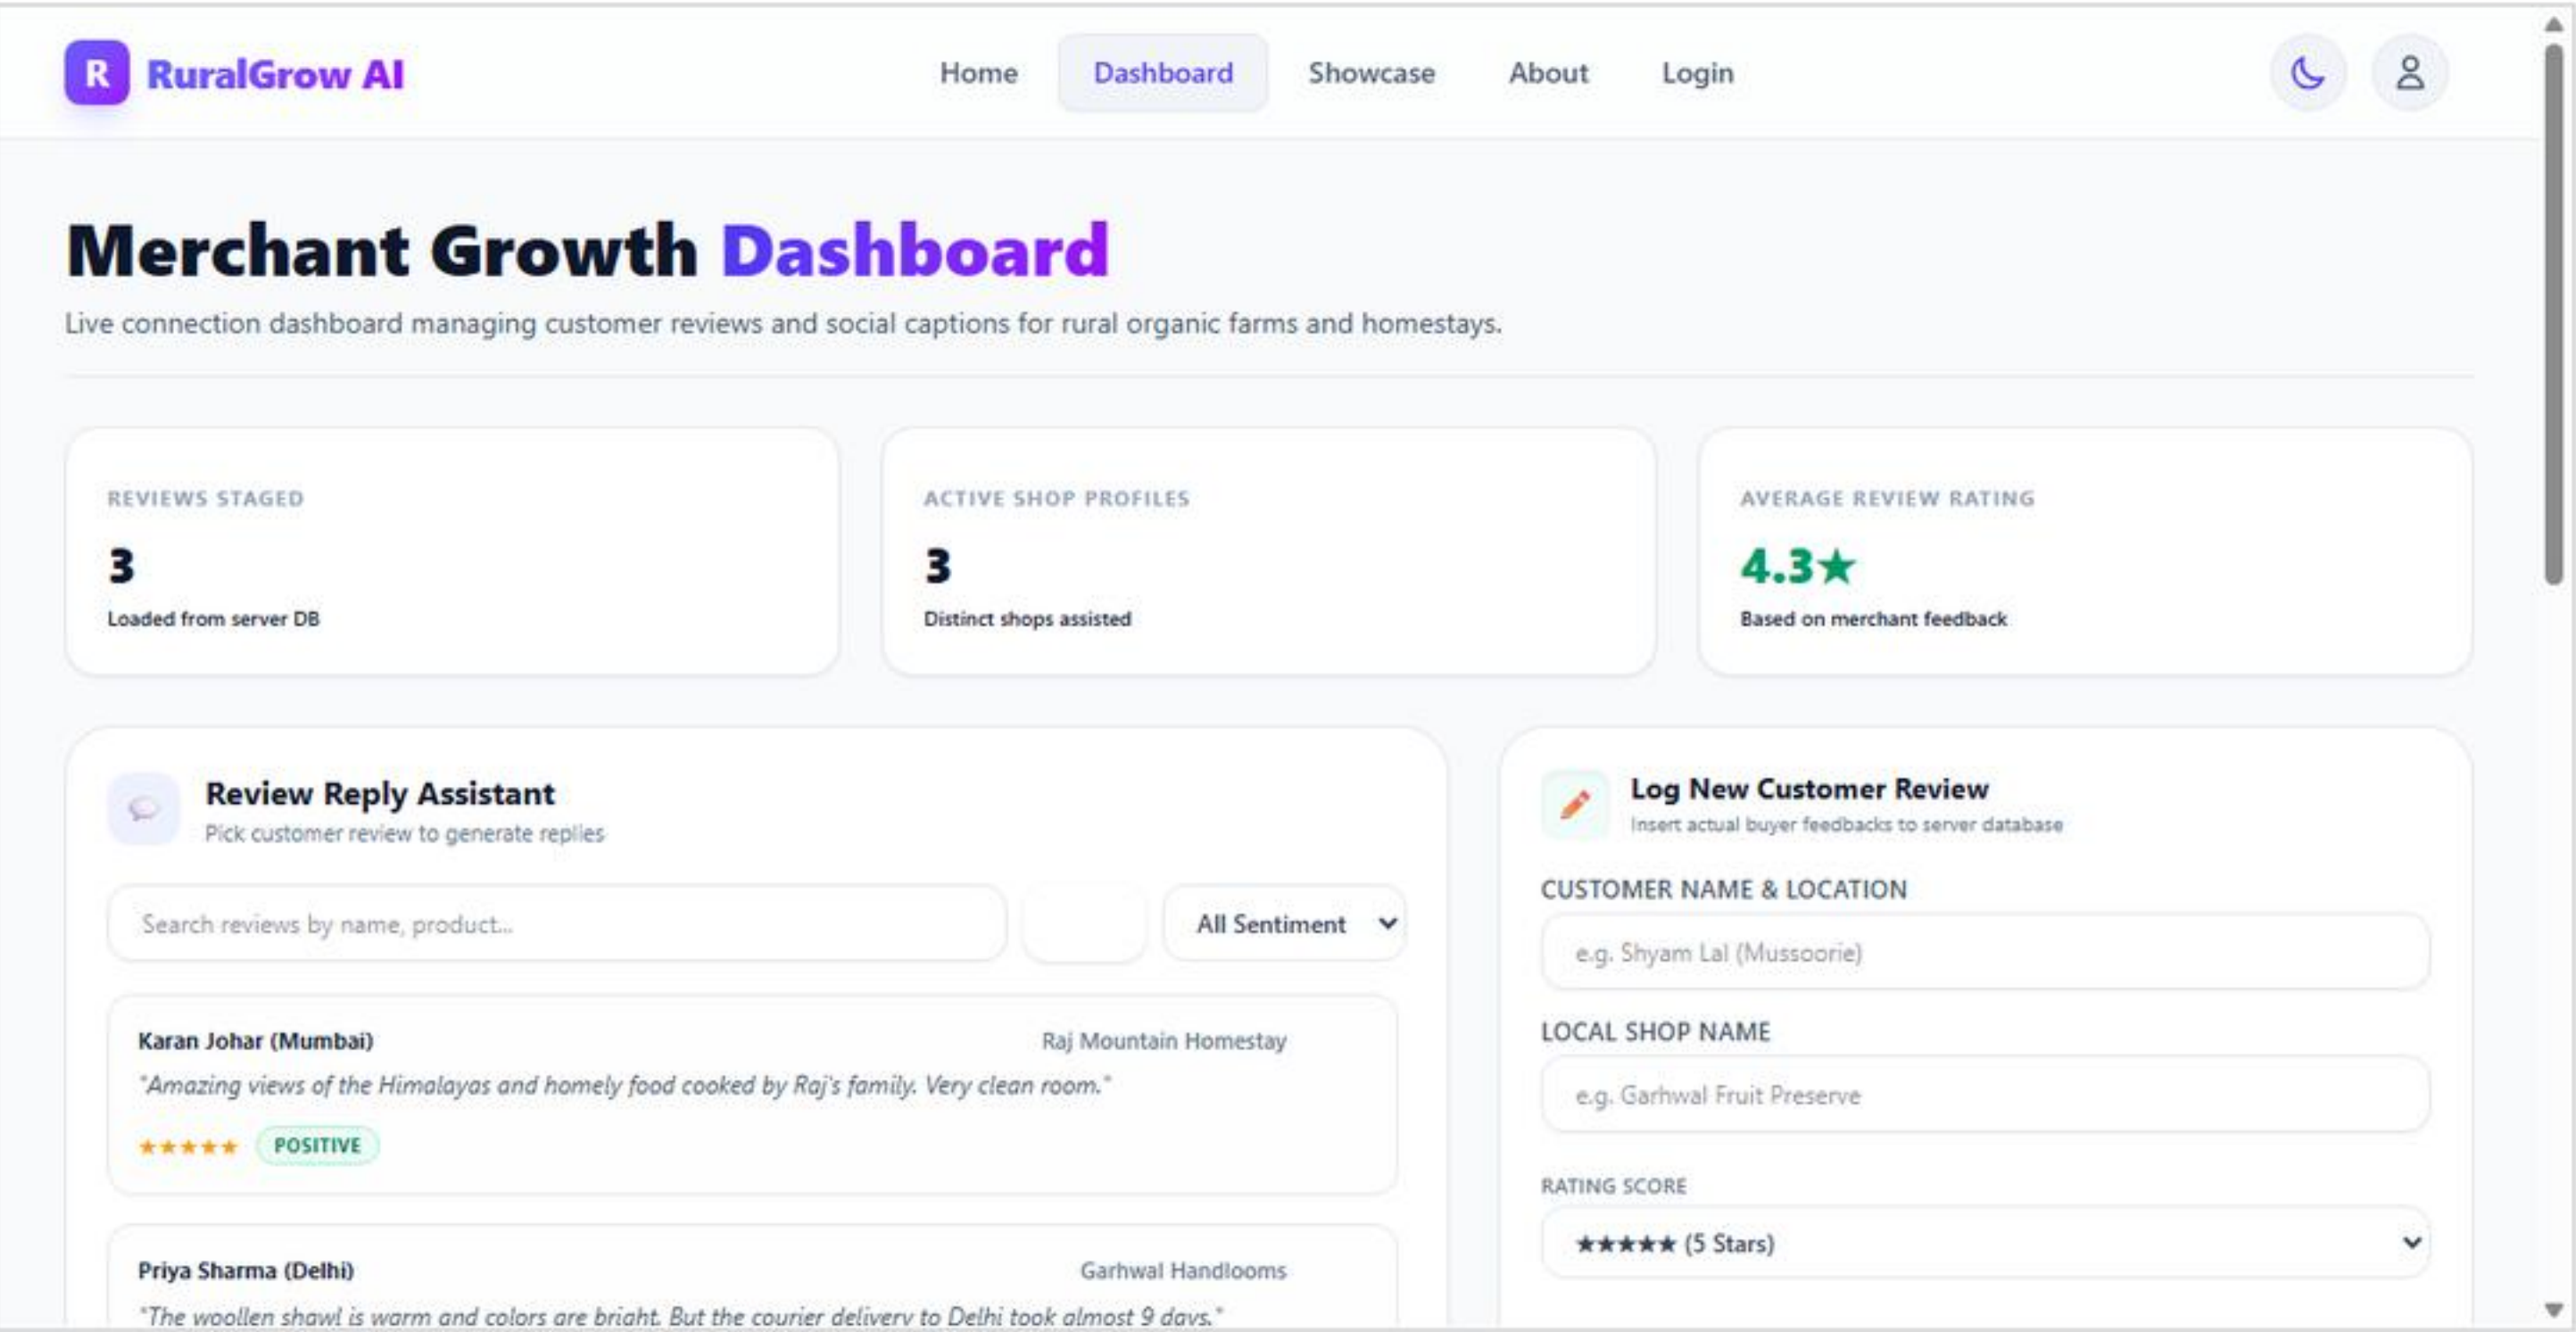

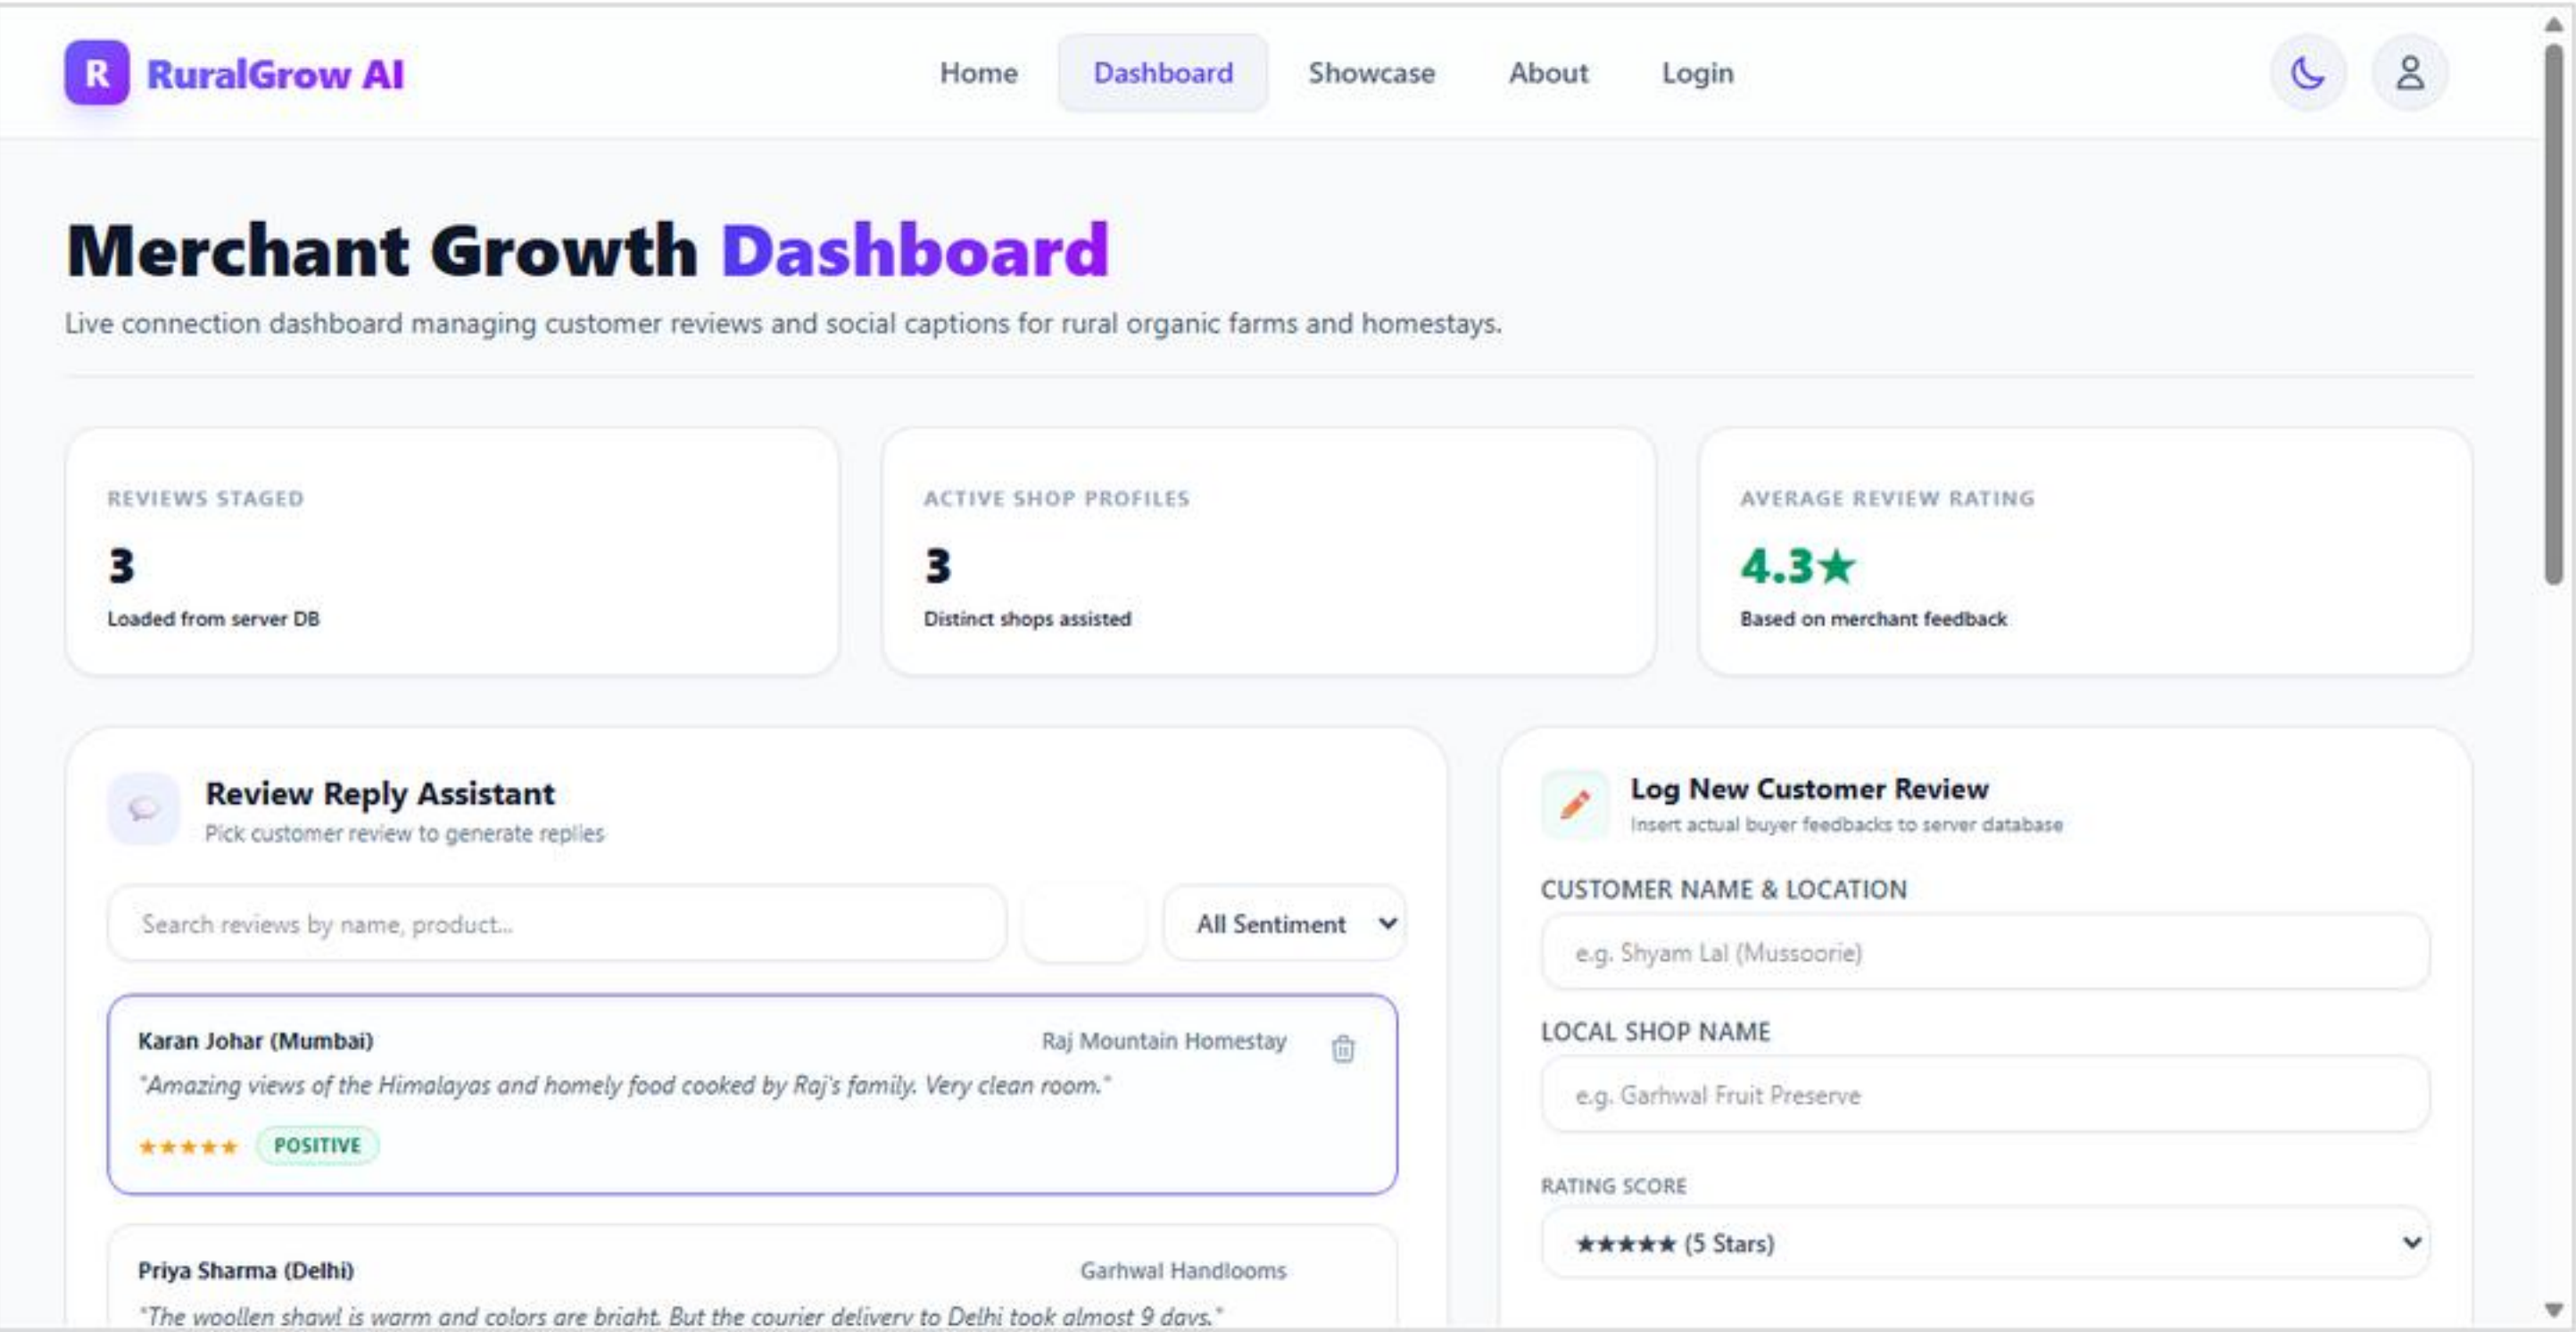

Figure 1: Dashboard Active Connection View

CAPTION NOTE:

This screenshot displays the live React merchant dash board rendering data fetched dynamically from the Express REST API backend database. The statistics widgets are calculated dynamically from the reviews dataset

Figure 2: Review Reply Selector & Draft Template

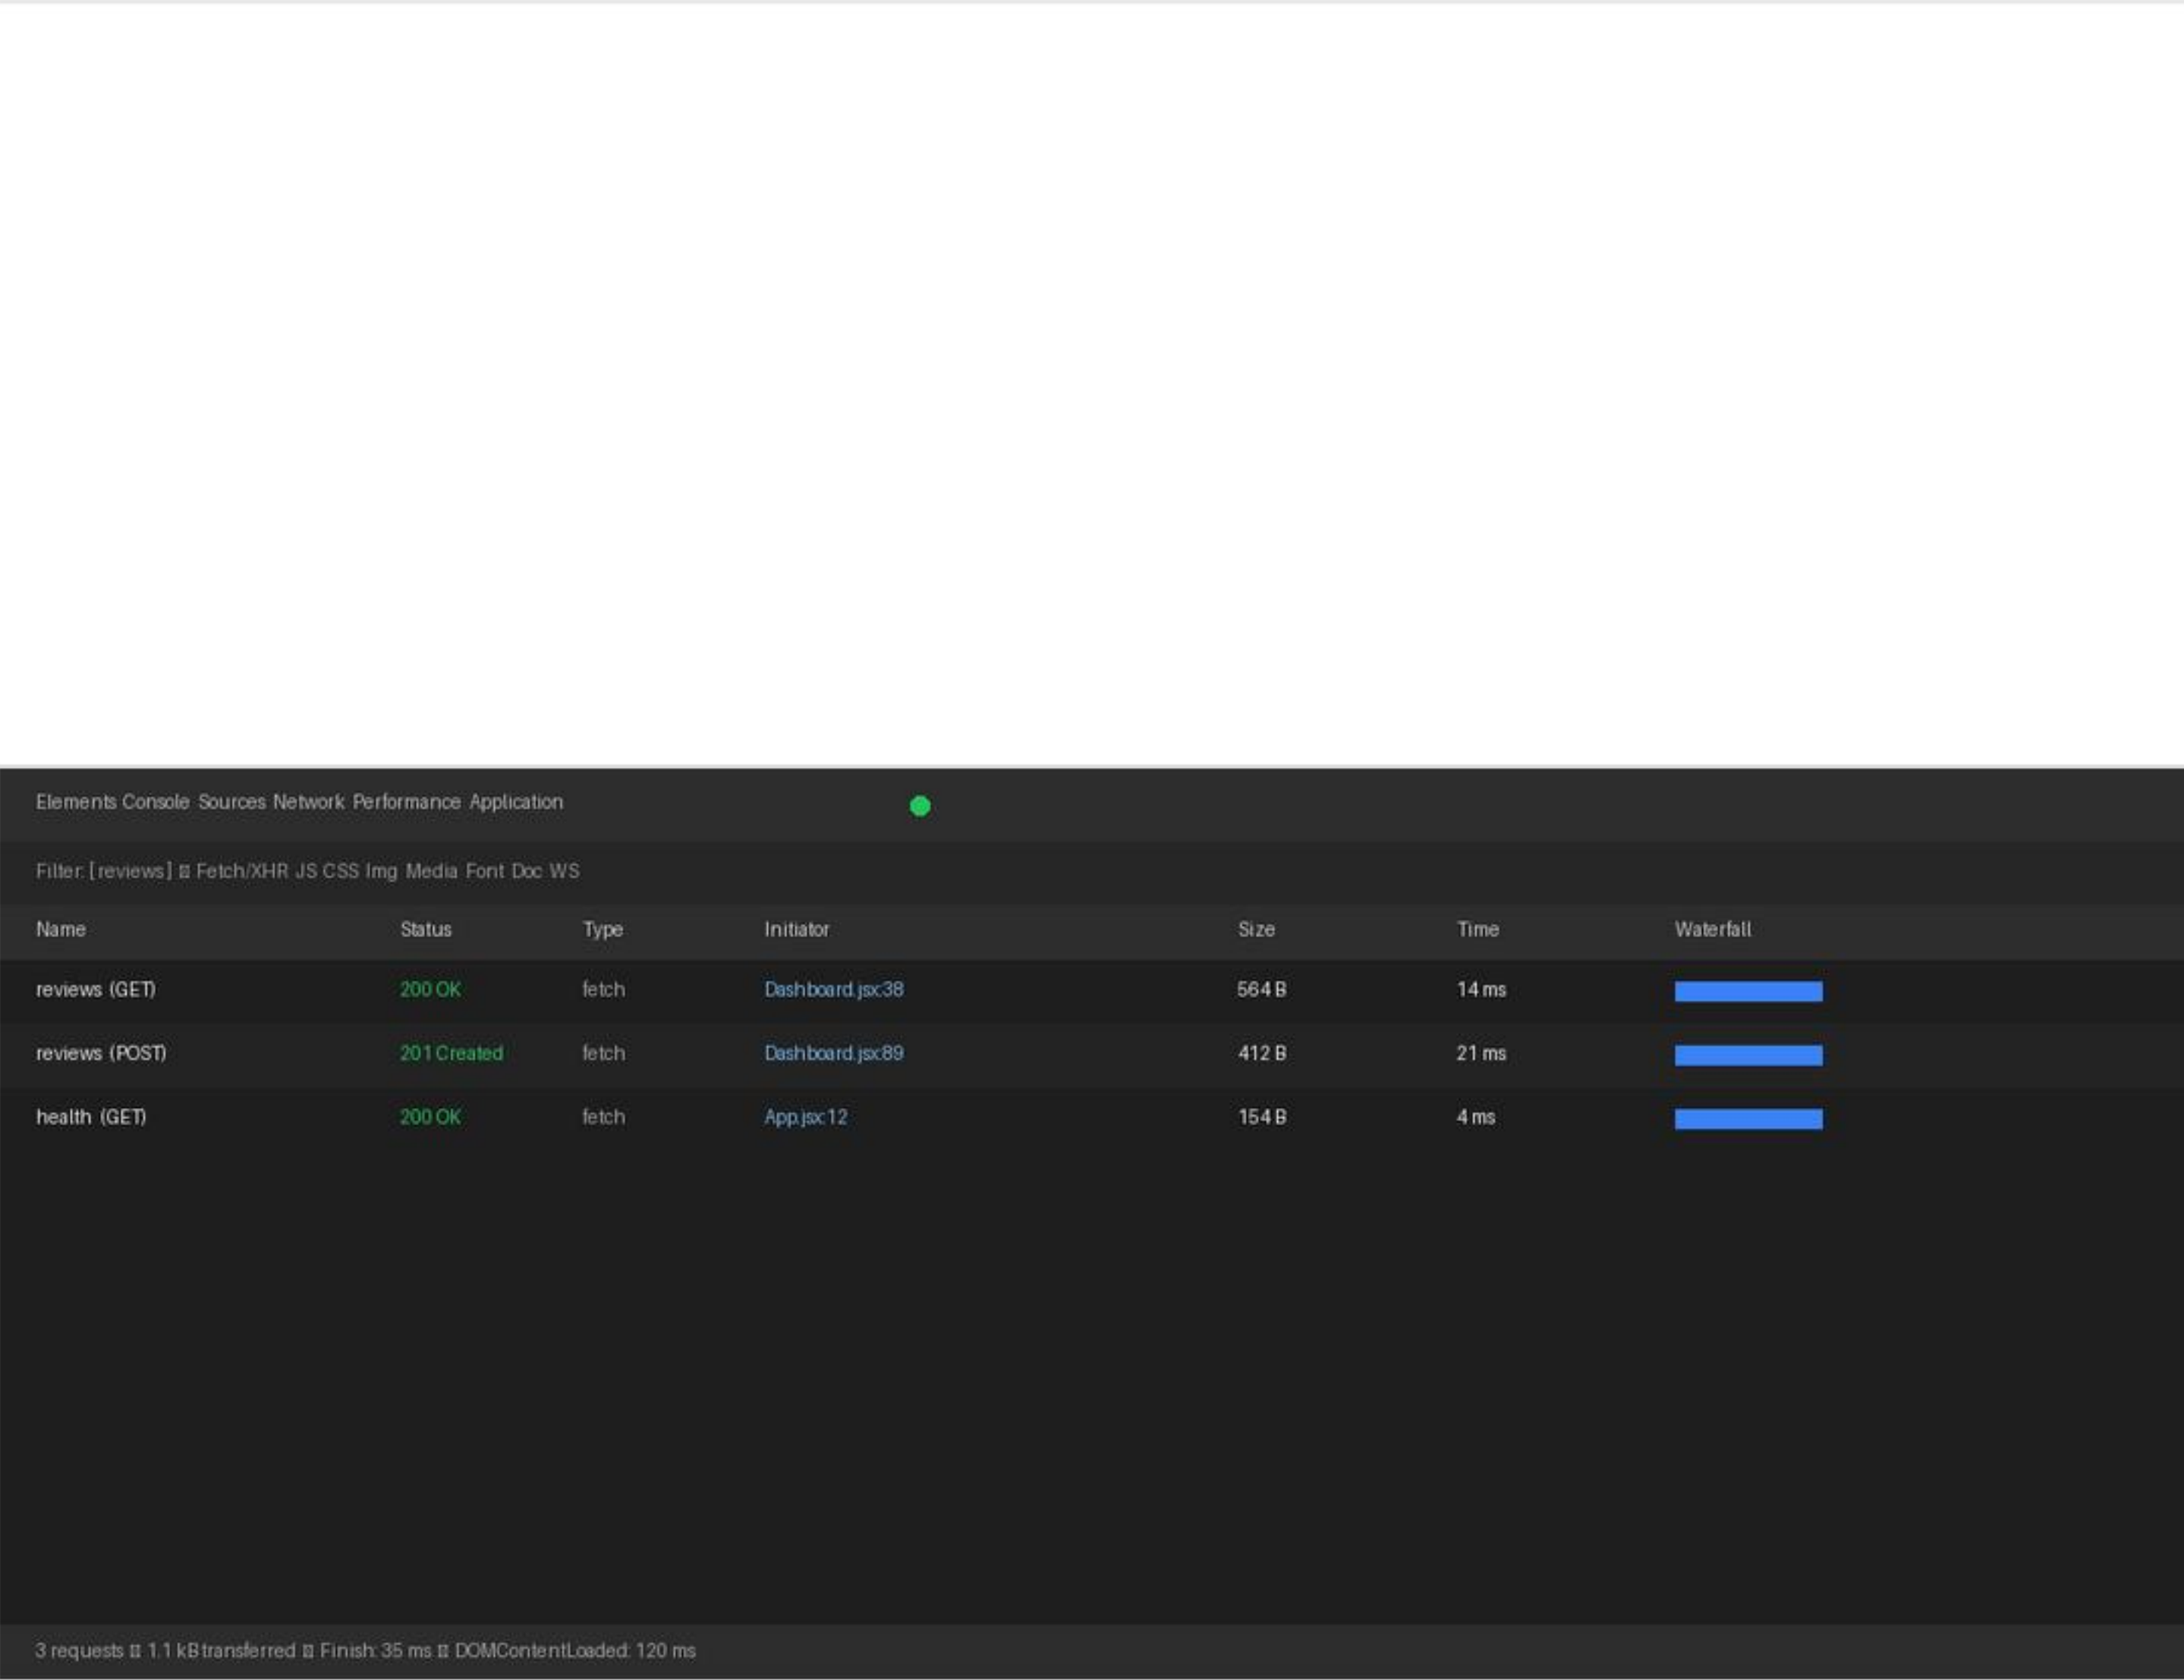

CAPTION NOTE:

This screenshot shows the interactive review selection mode. Picking a review card from the left panel displays the suggested polite response draft inside the action outbox below.

Figure 3: Chrome DevTools Network Tab API Logs

CAPTION NOTE:

This simulated DevTools panel shows successful REST exchanges. The network requests show status 200 OK for reviews listing, status 201 Created for adding logs, and CORS header approvals.
